HEMATOLOGY/ONCOLOGY FACULTY POSITIONS

The Hunter Holmes McGuire Department of Veterans Affairs Medical Center, Richmond, Virginia, and Virginia Commonwealth University School Of Medicine are seeking BE/BC Hematologist/Oncologists to join the McGuire Cancer Center. The candidate will have a unique opportunity to work at the soon-to-be-built state-of-the-art Hunter Holmes McGuire Cancer Center (VA) and our partner VCU Massey Cancer Center (NCI-CC).

We invite applications from candidates with a strong laboratory research background, especially in Hematologic malignancies on the physician-scientist track. Candidates with a strong publication record and funding will have potential opportunities for leadership roles. For a highly qualified candidate, a competitive start-up package including laboratory space, personnel, and supplies will be offered to establish a robust research program. The laboratory space is located in the VCU-SOM Sanger Research Building housing state-of-the-art core facilities. Adjacent to the medical campus is the VA Bio+Tech Park, a dynamic life sciences and emerging technologies community located in downtown Richmond. The Virginia Commonwealth University Massey Cancer Center is an NCI-Designated Cancer Center. For additional information regarding this position, please click on the following link:

We also invite application from dynamic clinicians with a keen interest and background in clinical research to apply on the clinical-investigator track based on prior research experience and training. Preference will be given to those with interest in hematologic malignancies as well as thoracic and prostate malignancies. Duties include patient care, clinical research, and teaching. The successful candidate should be eligible to hold a faculty appointment at the Assistant/Associate Professor level at the Virginia Commonwealth University School of Medicine. EOE/Affirmative Action Employer: All direct patient care positions are subject to all federal hiring procedures, to include pre-employment random drug-testing procedures.
Memorial Sloan Kettering Cancer Center

Assistant or Associate Attending
Lymphoma Service
Division of Hematologic Malignancies,
Department of Medicine
Memorial Sloan Kettering Cancer Center

Memorial Sloan Kettering Cancer Center (MSK) is one of the world’s premier cancer centers, committed to exceptional patient care, leading-edge research, and superb educational programs. The blending of research with patient care is at the heart of everything we do. The institution is a comprehensive cancer center whose purposes are the treatment and control of cancer, the advancement of biomedical knowledge through laboratory and clinical research, and the training of scientists, physicians and other health care workers.

The Lymphoma Service in the Department of Medicine at Memorial Sloan Kettering Cancer Center is seeking a full-time faculty member at the Assistant or Associate Attending level for clinical service and research. The Lymphoma Service has an interest in the multidisciplinary care for patients with all lymphoma entities. Our 23 full-time oncologists see patients at different stages of their disease management, coordinating their care and developing comprehensive and innovative strategies using conventional and investigational treatments, including immune-based, targeted and cell therapies.

The service also supports a wide range of clinical and translational research, with established collaborations with other clinical services and research laboratories, and recent publications in top tier journals of medicine, oncology and hematology. Candidates must be board certified or board eligible in medical oncology.

Please send CV, a letter outlining your interest and names/contact information of three references via email to:

Gilles Salles, MD, PhD
Chief, Lymphoma Service

MSK is an equal opportunity and affirmative action employer committed to diversity and inclusion in all aspects of recruiting and employment. All qualified individuals are encouraged to apply and will receive consideration without regard to race, color, gender, gender identity or expression, sexual orientation, national origin, age, religion, creed, disability, veteran status or any other factor which cannot lawfully be used as a basis for an employment decision.

Federal law requires employers to provide reasonable accommodation to qualified individuals with disabilities. Please tell us if you require a reasonable accommodation to apply for a job or to perform your job. Examples of reasonable accommodation include making a change to the application process or work procedures, providing documents in an alternate format, using a sign language interpreter, or using specialized equipment.

The University of Texas MD Anderson Cancer Center, Department of Lymphoma/Myeloma, is recruiting for a clinical research faculty member with sub-speciality of lymphoma. Physicians who have extensive research experience in clinical investigation and outcomes research with a particular focus in data science and clinical epidemiology research in lymphomas are strongly encouraged to apply. Faculty rank and space will be provided consistent with experience. Generous startup resources will be provided per institutional policy. The successful candidate will actively engage in research of data science and early phase clinical trials with novel design in lymphoma to enhance the academic environment of the department. The candidate will have protected time to lead and develop programs, translational clinical research and scholarly activities in keeping within the goals of the department. The selected candidate will seek appropriate funding mechanisms to support translational and clinical research and assist with mentoring young faculty, fellows, and other trainees as well as contribute to the overall mission of the department. There are multiple opportunities for collaboration with other clinicians, biostatisticians, scientists, and physician-scientists within the institution and a joint faculty appointment in The University of Texas Health Science Center.

The successful candidate will have an M.D. or M.D. and Ph.D. degrees, with those holding an M.D. having demonstrated the ability to practice medicine, oncology in particular. Candidates with an M.D. must be American Board of Medical Specialties (ABMS) certified clinicians in their primary specialty and board-eligible for sub-speciality certification. Candidates must show evidence of commitment to scholarly activity and proof of scientific accomplishments. Candidates should possess excellent writing and communication skills as evidenced by peer-reviewed publications, presentation skills for professional meetings, and the demonstrated ability to obtain extramural funding for translational research. MD Anderson Cancer Center offers many opportunities in a growing and vibrant research, clinical, and training environment.

The salary range is $240,000-$323,000 and will be based on the applicant’s qualifications and experience. Please send a letter of intent, curriculum vitae, names and addresses of three to five references, and a brief summary of past research accomplishments and future research plans to: Kim Corbett, MBA, Department Administrator, at KACorbett@mdanderson.org.

MD Anderson Cancer Center is an equal opportunity employer and does not discriminate on the basis of race, color, religion, age, national origin, sex, sexual orientation, gender identity/expression, disability, veteran status, genetic information, or any other basis protected by federal, state, or local laws, unless such distinction is required by law. All positions at The University of Texas MD Anderson Cancer Center are security sensitive and subject to examination of criminal history record information. Smoke-free and drug-free environment.
