Position Title
Clinical Assistant Professor or Clinical Associate Professor, (Oncology Post BMT Service)

Position Description
The University of Washington (UW) Department of Medicine, Division of Medical Oncology is recruiting for a full-time clinical faculty member to join the Oncology Hematology group. The position would be at the Clinical Assistant Professor or Clinical Associate Professor level. This is a full-time (1.0 FTE) appointment based at Fred Hutchinson Cancer Center (Fred Hutch) University of Washington Medical Center-Montlake. Salary and faculty rank will be commensurate based on qualifications and rank. This position will hold an annual appointment that aligns with a 12-month service period (July 1-June 30) and may be reappointed to subsequent annual terms. Faculty with 12-month service periods are paid for 11 months of service over a 12-month period (July-June), meaning the equivalent of one month is available for paid time off. This position is primarily focused on providing exceptional high-quality clinical care. It is expected that the faculty member would teach medical students, residents, and fellows, and would help support clinical and translational research. University of Washington faculty engage in teaching, research, and service. The University of Washington faculty strive to deliver equitable healthcare in an environment that celebrates diversity. Applicants are directed to include details addressing past and planned contributions to diversity, equity, and inclusion.

Anticipated start date would be December 1, 2023.

Qualifications
Requirements include MD or DO (or foreign equivalent), completion of a fellowship in Medical Oncology and/or Hematology and American Board of Internal Medicine (ABIM) eligible or certified in Medical Oncology and/or Hematology (or foreign equivalent). In order to be eligible for University sponsorship for an H-1B visa, graduates of foreign (non-U.S.) medical schools must show successful completion of all three steps of the U.S. Medical Licensing Exam (USMLE), or equivalent as determined by the Secretary of Health and Human Services. University of Washington faculty engage in teaching, research, and service. Experience in GVHD and other post-allogeneic stem cell complications, as well as heme malignancy, preferably AML/MDS/MPN/ALL strongly preferred.

Application Instructions
Interested candidates should submit a CV, concise description of their training, career goals and a statement of past and planned contributions to diversity, equity, and inclusion (i.e., diversity statement), along with three references addressed to Dr. Laura Connelly-Smith at https://appp.jalterfals, com/125383.

Position Title
Open Rank Faculty Position (WOT) in Medical Oncology (Multiple Myeloma)

Position Description
The University of Washington (UW) Department of Medicine and Fred Hutchinson Cancer Center (Fred Hutch) are jointly recruiting for full-time faculty member in the Division of Oncology, specializing in clinical research and clinical care of patients with multiple myeloma and other plasma cell diseases including Waldenstrom Macroglobulinemia and amyloidosis. This position would be at the Assistant, Associate, or full Professor level without tenure (WOT) due to funding. Salary and academic appointment at University of Washington will be commensurate with experience, qualifications, and academic rank. Assistant professors (WOT) are eligible for multi-year appointments and associate professors (WOT) and full professors (WOT) hold indefinite appointments that all align with a 12-month service period (July 1-June 30). Faculty with 12-month service periods are paid for 11 months of service over a 12-month period (July-June), meaning the equivalent of one month is available for paid time off. University of Washington faculty engage in teaching, research, and service. The selected candidates will have the opportunity to participate in ongoing funded clinical and laboratory research programs related to the biology and therapy of cancer. In addition, the candidate will have the opportunity and resources to develop his/her own clinical research program. The position will also involve participation in the clinical and instructional activities of the Division of Medical Oncology.

Teaching responsibilities would involve oversight of housestaff and fellows during your ambulatory and inpatient activities and delivery of selected lectures to housestaff and the general medical community.

Anticipated start date would be January 1, 2024.

Qualifications
The candidate should have a primary interest in multiple myeloma and other related diseases including Waldenstrom Macroglobulinemia and amyloidosis specifically.

Requirements include MD or DO (or foreign equivalent), completion of a fellowship in Medical Oncology and/or Hematology and American Board of Internal Medicine (ABIM) eligible or certified in Medical Oncology or Hematology (or foreign equivalent). In order to be eligible for University sponsorship for an H-1B visa, graduates of foreign (non-U.S.) medical schools must show successful completion of all three steps of the U.S. Medical Licensing Exam (USMLE), or equivalent as determined by the Secretary of Health and Human Services.

Application Instructions
Interested candidates should submit a curriculum vitae, a concise statement of their training, research activities, career goals; a diversity statement of past and planned contributions to diversity, equity, and inclusion and a list of three references, along with a letter of application addressed to Dr. Andrew Cowan. https://appp.jalterfals.com/14543.
