### The University of Pittsburgh

**Director, Division of Pediatric Hematology-Oncology**

**UPMC Children’s Hospital of Pittsburgh**  
Department of Pediatrics  
University of Pittsburgh School of Medicine

The Division of Pediatric Hematology-Oncology in the Department of Pediatrics at the University of Pittsburgh School of Medicine is recruiting a Division Director.  

The ideal candidate for this position is a physician-scientist with a strong record of research accomplishments in patient-oriented, translational, or basic science research. The Division Director also should have excellent mentoring, clinical, and teaching skills as well as administrative experience sufficient to lead the division. The Division Director will be supported by generous development funds and will be offered an endowed chair.

The Division of Pediatric Hematology-Oncology at the University of Pittsburgh encompasses the largest, most comprehensive childhood cancer and blood disease center in the Western Pennsylvania, Eastern Ohio, and Northern West Virginia regions. The Division currently includes 21 faculty members and 10 Advanced-Practice Providers, who provide compassionate, state-of-the-art care for children with cancer and hematologic disorders. Members of the Division have extensive research interests spanning basic research to understand cancer mechanisms, high-impact translational research, and NIH-funded clinical trials. The Division also is home to an outstanding fellowship program to train future leaders in pediatric hematology and oncology.

The Department of Pediatrics at the University of Pittsburgh School of Medicine is comprised of 20 divisions, six centers, and two institutes, with over 350 faculty members. The Department receives around $60 million in annual research support from the NIH and other federal and non-federal funding agencies.

UPMC Children’s Hospital of Pittsburgh, included in the Top 10 Honor Roll on U.S. News & World Report’s 2023-2024 list of “America’s Best Children’s Hospitals,” is a 317-bed, free-standing children’s hospital located in the thriving Lawrenceville neighborhood of Pittsburgh, Pennsylvania. UPMC Children’s Hospital cares for over 80% of all hospitalized children (and over 90% of all hospitalized children under the age of 12) in our region, a large catchment area that includes Western Pennsylvania, Eastern Ohio, Northern West Virginia, and Southwestern New York. Overlooking the Allegheny River and much of the Pittsburgh metropolitan area, the hospital is minutes away from the downtown cultural district, home stadiums for three major league sports teams, an internationally recognized culinary scene, and renowned centers of higher learning at the University of Pittsburgh and Carnegie-Mellon University.

We seek candidates who embrace and reflect diversity and belonging. The University of Pittsburgh and UPMC Children’s Hospital of Pittsburgh are equal opportunity employers. Interested individuals should forward a letter of intent and curriculum vitae. Informal inquiries also are encouraged. We seek applicants as well as nominees.

**Interested candidates should contact:**

*Amr Sawalha, M.D.*  
Professor of Pediatrics, Medicine, and Immunology  
Director, Division of Rheumatology  
Director, UPMC Lupus Center of Excellence  

aswalha@pitt.edu

The University of Pittsburgh is an Affirmative Action/Equal Opportunity Employer and values equality of opportunity, human dignity and diversity. EEO/AA/M/F/Vets/Disabled. Minorities/women/individuals with disabilities/veterans are encouraged to apply.

---

Physicians with experience in clinical research, especially in cancer associated thrombosis, are strongly encouraged to apply. Candidates must show evidence of scholarly activity, scientific accomplishment, and skill in writing and communication. Faculty rank and protected research time will be provided consistent with experience. The successful candidate will be expected to engage in benign hematology research and scholarly activity that will enhance the academic environment of the institution. The selected candidate will also be expected to become familiar with appropriate funding mechanisms to support cancer-related benign hematology research and to assist with mentoring young faculty, fellows, and other trainees. The candidate will have protected time to lead and develop programs, perform research, and complete scholarly activities in keeping with the goals of the Section.

The Section of Benign Hematology and MD Anderson Cancer Center offer many opportunities in a growing and vibrant research, clinical, and training environment, including developing multidisciplinary collaborations with other clinicians, scientists and physician-scientists within the institution, as well as engaging in established collaborative groups throughout the Texas Medical Center. The successful candidate will have a MD, or MD and PhD degrees, having demonstrated the ability to practice internal medicine generally and classical hematology in particular. Candidates must be American Board of Medical Specialties (ABMS) certified clinicians in Internal Medicine and board eligible or certified in Hematology. Training in medical oncology is encouraged but not mandatory. Refer to the Benign Hematology section page for additional information about the department and its programs.

Please send a letter of intent, curriculum vitae, names and addresses of three to five references, and a brief summary of past research accomplishments and future research plans to:

**Catherine Butler-Gunn,**  
Associate Department Administrator  
MD Anderson Cancer Center  
Benign Hematology  
1515 Holcombe Blvd  
Unit 1446  
Houston, TX 77030-4009  
cabutler1@mdanderson.org

MD Anderson Cancer Center is an equal opportunity employer and does not discriminate on the basis of race, color, religion, age, national origin, sex, sexual orientation, gender identity/expression, disability, veteran status, genetic information, or any other basis protected by federal, state, or local laws, unless such distinction is required by law. All positions at The University of Texas MD Anderson Cancer Center are security sensitive and subject to examination of criminal history record information. Smoke-free and drug-free environment.
Cleveland Clinic is seeking applicants for Director of the Benign Hematology Program in the Hematology and Medical Oncology Department. The Benign Hematology Program has a well-established track record of outstanding patient care, innovative clinical trials, and important translational research. The Director will be responsible for ensuring superior quality care and for the recruitment and mentoring of junior faculty.

This individual will also collaborate with translational and basic scientists to develop innovative clinical and translational research projects designed to improve the health of patients with benign blood disorders. The Program Leader will effectively articulate the goals, direction, mission, critical issues, and values of Cleveland Clinic to the associates and employees who work within the Benign Hematology Program, the Northeast Ohio hematology community, and referring and affiliated physicians. The Director will also be offered commensurate faculty appointment at the Cleveland Clinic Lerner College of Medicine at Case Western Reserve University School of Medicine.

The successful candidate should be board certified or eligible in Hematology and hold or be eligible for medical licensure in Ohio. An excellent salary and benefit package is available.

Cleveland Clinic is a not-for-profit, multi-specialty academic medical center that integrates clinical and hospital care with research and education. The Taussig Cancer Institute has been rated by U.S. News & World Report Magazine among the best cancer institutes in the country, part of the NCI designated Case Comprehensive Cancer Center and an NCCN member institution.

Interested candidates should send their CV with a cover letter to Dr. Matt Kalaycio with a copy to Elizabeth Lindecke.
