A Staff Clinician position is available in the Immune Deficiency-Cellular Therapy Program of the Center for Cancer Research (CCR), National Cancer Institute (NCI), National Institutes of Health (NIH). Dr. Dennis Hickstein is seeking a Staff Clinician responsible for patient care responsibilities and to participate in clinical research studies in transplantation for patients with GATA2 deficiency and VEXAS, a recently described inflammatory bone marrow syndrome, as well as other primary immunodeficiency diseases.

The successful candidate must have an M.D. degree or equivalent, be a board eligible or board certified internist who has completed a hematology or oncology fellowship or have similar professional experience. He or she must demonstrate ability to provide high quality patient care for individuals undergoing hemopoietic stem cell transplant in clinical research trials.

The successful applicant will be appointed at a salary commensurate with his/her qualifications and experience. Full Federal benefits including leave, health and life insurance, long-term care insurance, retirement, and savings plan (or equivalent) will be provided.

Interested individuals should send a cover letter, curriculum vitae and bibliography, a brief statement of research interests and accomplishments, description of clinical experience, and the names and addresses of three references to:

Dennis D. Hickstein, M.D.
Center for Cancer Research, National Cancer Institute
Email: hicksted@mail.nih.gov

Applications will be accepted until the position is filled.

HHS, NIH, and NCI are Equal Opportunity Employers.

The NIH and NCI are dedicated to building a diverse community in its training and employment programs and encourages the application and nomination of qualified women, minorities, and individuals with disabilities.

For additional information about the position, please contact Karen Ballen, M.D., Professor and Division Chief, Division of Hematology/Oncology, via email: KB3TC@virginia.edu.

For assistance regarding the application process, please contact Greg Haskins, Senior Recruiter, at gph3z@virginia.edu.

To apply, visit https://uva.wd1.myworkdayjobs.com/UVAJobs and search for requisition # R0018025. Complete the application and attach documents listed below. Please note multiple documents can be uploaded in the CV/Resume Box.

We are equal opportunity and affirmative action employers.
HEMATOLOGY/ONCOLOGY

FACULTY POSITIONS

The Hunter Holmes McGuire Department of Veterans Affairs Medical Center, Richmond, Virginia, and Virginia Commonwealth University School Of Medicine are seeking BE/BC Hematologist/Onologists to join the McGuire Cancer Center. The candidate will have a unique opportunity to work at the soon-to-be-built state-of-the-art Hunter Holmes McGuire Cancer Center (VA) and our partner VCU Massey Cancer Center (NCI-CC).

We invite applications from candidates with a strong laboratory research background, especially in Hematologic malignancies on the physician-scientist track. Candidates with a strong publication record and funding will have potential opportunities for leadership roles. For a highly qualified candidate, a competitive start-up package including laboratory space, personnel, and supplies will be offered to establish a robust research program. The laboratory space is located in the VCU-SOM Sanger Research Building housing state-of-the-art core facilities. Adjacent to the medical campus is the VA Bio+Tech Park, a dynamic life sciences and emerging technologies community located in downtown Richmond. The Virginia Commonwealth University Massey Cancer Center is an NCI-Designated Cancer Center. For additional information regarding this position, please click on the following link:

The successful candidate should be eligible to hold a faculty appointment at the Assistant/Associate Professor level at the Virginia Commonwealth University School of Medicine. EO/E Affirmative Action Employer: All direct patient care positions are subject to all federal hiring procedures, to include pre-employment random drug-testing procedures.

Memorial Sloan Kettering Cancer Center (MSK) is one of the world’s premier cancer centers, committed to exceptional patient care, leading-edge research, and superb educational programs. The blending of research with patient care is at the heart of everything we do. The institution is a comprehensive cancer center whose purposes are the treatment and control of cancer, the advancement of biomedical knowledge through laboratory and clinical research, and the training of scientists, physicians and other health care workers.

The Lymphoma Service in the Department of Medicine at Memorial Sloan Kettering Cancer Center is seeking a full-time faculty member at the Assistant or Associate Attending level for clinical service and research. The Lymphoma Service has an interest in the multidisciplinary care for patients with all lymphoma entities. Our 23 full-time oncologists see patients at different stages of their disease management, coordinating their care and developing comprehensive and innovative strategies using conventional and investigational treatments, including immune-based, targeted and cell therapies. The service also supports a wide range of clinical and translational research, with established collaborations with other clinical services and research laboratories, and recent publications in top tier journals of medicine, oncology and hematology. Candidates must be board certified or board eligible in medical oncology.

Please send CV, a letter outlining your interest and names/contact information of three references via email to:

Gilles Salles, MD, PhD
Chief, Lymphoma Service
